PUBLIC NOTICE
for
**SRTS SIDEWALK
CONSTRUCTION PROJECT**

PROJECT

The City of Locust and NCDOT will be constructing sidewalks adjacent to your properties in order to enhance the connectivity and safety for foot traffic throughout the city. A scope of work for this project can be acquired at your request.

LOCATION

General map of the project locations is available at your request.

WORK HOURS

Between March 1st – August 1st
9am to 4pm (NC 200N), Monday through Friday
7am to 7pm (Maple St. and Lions Club Dr.), Monday through Friday
Holiday schedule will vary as needed

POSSIBLE INCONVENIENCES

During this project, residents will encounter minor traffic delays. Traffic will be limited to “Local Traffic Only” during this process. In addition, driveway access will be limited at times. The City of Locust will work diligently to minimize this inconvenience, by good communication and scheduling. Also, residential mailboxes that are located on the north side of Maple St. will be permanently relocated to the south side. This is to eliminate any future safety concerns of objects being in the public sidewalk. Finally, but not least, will be work zone safety/housekeeping. This is a major focal point of the City of Locust during this time. If at any time you have any concerns, please contact us at City Hall.

RESIDENT ACTION

- Park vehicles away from construction area
- Keep children and pets away from construction area
- If you have any concerns, please contact City Hall, not the contractors, and we’ll be happy to resolve them
